

MEMBER PROFILE

We have a section on our website that enables members and guests to get to know each other better. Those members who participate will have a profile logo next to their name below their picture. With a click on this logo, their profile page is displayed.

If you would like your profile added to the website, please complete this form and return it to Richard Stone. We also require two photographs - one of yourself and one of your car. Any printed photographs will be scanned and returned. If you run out of space, please continue on the reverse of the sheet, but please don't write too much as webspace is restricted. You may email the details and photos (any format) if you wish.

No personal contact information will be displayed.
